Advanced Veterinary Studies

ESAVS Neurology Course part I 2021 40 hours of intensive neurology training!

**Neurology I, 21-25 June 2021
(currently planned as residential course with option to be changed to
combined if Covid-19 situation requires)**

Course Details and Registration: <https://www.esavs.eu/events/neuro121>

This course focuses on the principles of the neurological examination and aims to refresh knowledge of the relevant fundamentals of neuroanatomy, neurophysiology and pathophysiology of the central and peripheral nervous system. In the practical case-based sessions the attendants have intensive training to define the neuroanatomical lesion localization and learn about common neurological diseases seen in private practice.

Program Director/Principal Course Master

Prof. Dr. Veronika Stein Dipl. ECVN (CH)

Course Masters

Dr. Arianna Maiolini DECVN (CH)

Dr. Julien Guevar DECVN (CH)

Prof. Dr. Frank Forterre DECVS (CH)

Prof. Dr. Petra Roosje DECVD (CH)

Dr. Maya Bräm (CH)

Veterinary Neurology Course Programme

Monday 21/06/21

08:45 – 09:00 Registration and Welcome Stein
09:00 – 10:00 Introduction and Goals of the Course Stein
10:00 – 10:30 Coffee Break
10:30 – 12:00 The Neurological Examination Maiolini
12:00 – 13:30 Lunch Break
13:30 – 17:00 Case Based Session: Videos Stein, Maiolini,
Abnormal Findings in the Neurological Exam Guevar, Schmidli
17:00 – 17:30 Discussion and Summary of Learning Objectives Stein
17:30 Welcome Apéro

Tuesday 22/06/21

08:15 – 08:30 Learning Objectives of the Day Stein
08:30 – 10:00 Principles of Lesion Localization (Spinal Cord) Stein
10:00 – 10:30 Coffee Break
10:30 – 11:15 Orthopedic versus Neurologic Gait Disturbance Forterre
11:15 – 12:00 Tail, Anal and Bladder Dysfunction Maiolini
12:00 – 13:30 Lunch Break
13:30 – 17:00 Case Based Session: Videos Stein, Maiolini,
Lesion Localization in the Nervous System Forterre, Schmidli
17:00 – 17:30 Discussion and Summary of Learning Objectives Stein

Wednesday 23/06/21

08:15 – 08:30 Learning Objectives of the Day Stein
08:30 – 10:00 Principles of Lesion Localization (Brain) Maiolini
10:00 – 10:30 Coffee Break
10:30 – 11:15 Visual System Guevar
11:15 – 12:00 Behavior / Mental Status Abnormalities Bräm
12:00 – 13:30 Lunch Break
13:30 – 17:00 Case Based Session: Videos Maiolini, Bräm,
Lesion Localization in the Nervous System Guevar, Prümmer
17:00 – 17:30 Discussion and Summary of Learning Objectives Stein
19:00 Social Dinner

Thursday 24/06/21

08:15 – 08:30 Learning Objectives of the Day Stein
08:30 – 10:00 Principles of Lesion Localization (CNS – PNS) Stein
10:00 – 10:30 Coffee Break
10:30 – 11:15 Paresis/Paralysis of one Limb Forterre
11:15 – 12:00 Paroxysmal Disorders Guevar
12:00 – 13:30 Lunch Break
13:30 – 17:00 Case Based Session: Videos Stein, Maiolini,
Lesion Localization in the Nervous System Guevar, Forterre
17:00 – 17:30 Discussion and Summary of Learning Objectives Stein

Friday 25/06/21

08:15 – 08:30 Learning Objectives of the Day Stein
08:30 – 10:00 Principles of Lesion Localization (Vestibular) Stein
10:00 – 10:30 Coffee Break
10:30 – 11:15 Otoscopic Exam and Deafness Roosje, Guevar
11:15 – 12:00 Outlook to Neurology II + III Stein
(Differential Diagnoses, further Diagnostics, Pathology)
12:00 – 13:30 Lunch Break
13:30 – 17:00 Case Based Session: Videos Stein, Maiolini,
Lesion Localization in the Nervous System + BYOC Guevar, Prümmer
17:00 – 17:30 Discussion and summary of learning objectives Stein
